

Conversive CRM Portal — User Guide

Phase 2

Getting Started

Logging In

1. Go to your CRM URL (e.g. <https://conversive-crm-prod.onrender.com>)
2. Click **Sign in with Google** — use your company Google account
3. You'll be redirected to your dashboard automatically

**NOTE**

First-time users must be added by a Super Admin before they can log in. If you see an "Access Denied" page, contact your Super Admin.

Roles

Role	Access Level
Super Admin	Full access — all leads, all users, POD management, Salesforce logs, sync controls
Pod Admin	Manages their POD's leads and SDRs — can view, assign, and track pod performance
SDR	Works their assigned leads — research, calling, logging activity

Signing Out

Click your avatar in the bottom-left corner of the sidebar, then click the  button.

For SDRs

Dashboard

Your personal command centre with a **5-tile funnel**:

Tile	Meaning
My Leads	Total leads assigned to you
New Leads	Untouched leads (status: Lead Assigned)
Research Pending	Leads awaiting research completion
Calling	Leads in your active calling queue
Meetings Booked	Leads successfully moved to Meeting Scheduled

Below the tiles:

- **Today's Call Outcomes** — visual breakdown of calls you've made today
 - **Priority Queue** — your next leads to work, sorted by priority
 - **Leaderboard** — top 5 SDRs by meetings booked (with link to full leaderboard)
-

My Leads

Click **Leads** in the sidebar to see all leads assigned to you.

Filtering leads:

- Type in the  **Search** box to filter by name, email, or company
- Use the **Status** dropdown to filter by pipeline stage

Calling a lead: Click the  **Call** button on any row to log a call without opening the lead.

NOTE

The Call button is disabled for leads in **Lead Assigned** or **Research** status. Complete the research phase first to unlock calling.

Opening a lead: Click anywhere on the row to open the Lead Detail page.

Lead Detail

Lead Information

All lead fields (name, email, phone, company, title, status) are **click-to-edit** — click any field value to edit it inline. Press **Enter** or click away to save.

Research Phase

For leads in **Research** status, a guided research form appears with:

- Accordion sections for structured research data
- Chip selectors for quick categorization
- Progress ring tracking your completion
- Auto-fill from available enrichment data

Complete research to move the lead to **Calling** status.

Logging a Call

1. Click  **Log a Call** in the top-right
2. Select the **Outcome** (Answered, No Answer, Left Voicemail, Call Completed, etc.)
3. Optionally update the **Lead Status** directly from the call modal
4. Add any **Notes** about the call
5. Click **Log Call** — the call is saved and Salesforce status is updated

TIP

Selecting **Call Completed** as the outcome automatically moves the lead to **Meeting Scheduled** status.

Notes

- Type in the notes box and click **Save Note** to add a note
- Notes are time-stamped and attributed to you
- Click **X** to delete a note

Tasks

- Type a task title, optionally pick a due date, and click **Add**
- Check the checkbox to mark a task done
- Click **X** to delete a task

← **Back to Leads** returns you to the leads list.

Pipeline (Kanban Board)

Click **Pipeline** in the sidebar to see all your leads as cards organized by status column.

- **Drag a card** from one column to another to update the lead's status instantly
- Click  on a card to log a quick call

Search

Use the **search bar** at the top of any page. Results are filtered by name, email, or company.

NOTE

SDR search is scoped to your assigned leads only.

Leaderboard

Click **Leaderboard** in the sidebar. SDRs are ranked by **meetings booked** and displayed with:

- **Top 3** highlighted as medal cards with calls today, total calls, and conversion rate
- Full table with rank, POD name, and all performance metrics

Settings (SDR)

Click **Settings** to see:

- **Sync Summary** — your lead counts by status
- **Your Profile** — name, email, and role

For Pod Admins

You have everything SDRs have, plus the sections below.

All Leads

Pod Admins see **All Leads** across their POD (not just their own). The leads page includes:

- Tabs: **All Leads** and **Assignments**
- **Assigned To** column showing which SDR owns each lead

- Status filter and search across all pod leads

NOTE

Pod Admins can view leads from other PODs in **read-only** mode — editing is restricted to your own POD's leads.

Assignments Tab

Click the **Assignments** tab within the Leads page.

Assigning Leads Manually

1. Check the leads you want to assign
2. The **floating action bar** slides up showing how many are selected
3. Choose an SDR from the dropdown
4. Click **Assign** →

Round Robin Auto-Assign

Click  **Round Robin Auto-Assign** to distribute all unassigned leads evenly across your POD's SDRs. Each SDR has a **cap of 5 active leads** — leads beyond the cap are skipped.

Unassigning a Lead

In the Assigned Leads section, click **Unassign** next to any SDR name.

Admin Panel

Click  **Admin** in the sidebar. Pod Admins see their POD's users only.

- View SDR details, lead counts, and access status
- **Impersonate** a user with the  button to see their CRM view

Settings (Pod Admin)

In addition to SDR settings, Pod Admins see:

- **Salesforce Connection** status
- **Lead Sync Settings** (Sync Limit, Push Stage, Record Types, Sync Direction)
- **POD Settings** — configure whether SDRs can belong to multiple PODs

For Super Admins

You have everything Pod Admins have, plus the sections below.

Dashboard (Super Admin)

The Super Admin dashboard shows an **org-wide view** with:

- **Total Leads, Lead Assigned, Calling, Meetings Scheduled** tiles
 - **Recent Leads** table (instead of Priority Queue)
 - **Leaderboard** widget (top 5 SDRs)
 -  **Live Activity Feed** — real-time stream of status changes across the org
-

Admin Panel (Super Admin)

Super Admins see **all users** across all PODs, organized by role tabs:

Tabs: Super Admins / Pod Admins / SDRs

- View, add, and manage users across all roles
- **Change roles** — promote SDRs to Pod Admin or Super Admin
- **Revoke / Restore access** — block login without deleting history
-  **Impersonate** any user

Adding a User

1. Click **+ Add User**
2. Enter name, email, and role (Super Admin, Pod Admin, or SDR)
3. Optionally assign to a POD
4. Click **Add User**

Bulk SDR Upload via CSV

Click  **Upload CSV** in the SDRs tab.

```
email,name,action
alice@company.com,Alice Smith,add

bob@company.com,Bob Jones,remove
```

POD Management

Click  **PODs** in the sidebar (Super Admin only).

Creating a POD

1. Click **+ Create POD**
2. Enter a POD name and select a Pod Admin
3. Click **Create**

Managing Members

- Each POD card shows the admin, member list, and lead counts
 - Use the **Add SDR** dropdown to add team members
 - Click **Remove** to take an SDR out of a POD
 - Click  to delete a POD entirely
-

Salesforce Integration Logs

Click  **SF Logs** in the sidebar (Super Admin only). This dashboard shows every Salesforce API interaction.

Filters

Filter logs by **Status** (Success/Failed), **Operation** (Create/Update/Upsert/Fetch/Query), **Object** (Lead/User/RecordType), **Date Range**, and **Search** (record ID, name, email).

Features

- **Stats row** — Total logs, page count, success count, failed count
 - **Sortable table** — timestamp, operation badge, status icon, lead name, email, record ID
 - **Click**  on any row to see full detail: request/response payloads, error messages, fields updated
 -  **Export CSV** — download filtered logs as CSV
 - **Auto-refresh** — toggle 30-second auto-refresh
 - **Pagination** — 20 logs per page
-

Syncing Salesforce

The  **Sync** button in the top bar syncs your CRM with Salesforce.

What happens during sync:

1. If **Two-Way** sync is enabled: new/changed leads are pulled FROM Salesforce
2. Leads at the configured **Push Stage** (default: Meeting Scheduled) are pushed TO Salesforce

3. Status updates for existing SF leads are synced

⚠ IMPORTANT

Leads are de-duplicated during upload by email, phone (last 10 digits), LinkedIn URL, and name+company combination.

Bulk Lead Import (CSV)

Click  **Upload Leads** in the top bar.

1. Select a CSV file
2. **Preview** — see headers and first 5 rows
3. **Field Mapping** — auto-detected or manually map CSV columns to CRM fields
4. Click **Import** — leads are created with duplicate detection

Supported fields: `first_name`, `last_name`, `email`, `phone`, `company`, `title`, `linkedin_url`, `person_linkedin`, `website`, `city`, `state`, `country`, `industry`, `employee_count`, `annual_revenue`, `total_funding`, and more.

Creating a Lead Manually

Click **+ New Lead** in the top bar, fill in the details, and click **Save**. Manual leads are created locally (not pushed to Salesforce until they reach the Push Stage).

Settings (Super Admin)

Lead Sync Settings

Setting	Description
Lead Sync Limit	Max leads per sync. <code>0</code> = unlimited. Default: <code>1000</code>
Salesforce Push Stage	Status that triggers push to SF (default: Meeting Scheduled)
Record Types to Sync	Select which SF Record Types to include in sync
Sync Direction	Push Only (CRM → SF) or Two-Way (also pulls from SF)

POD Settings

Setting	Description
Allow SDR in Multiple PODs	When enabled, SDRs can belong to more than one POD simultaneously

Pipeline Statuses

Status	Meaning
Lead Assigned	New lead assigned to an SDR, awaiting research
Research	SDR is completing guided research on the lead
Calling	Lead is in the active calling queue
Meeting Scheduled	Meeting booked — lead is pushed to Salesforce
Lead Unassigned	Lead has no SDR assigned (visible in admin views)

Tips & Best Practices

- **Start your day** on the Dashboard → work through New Leads and Research Pending first
- **Complete research** before calling — the Call button unlocks after research is done
- **Log every call** — even No Answers — so dashboard metrics stay accurate
- **Use the Leaderboard** to motivate your team — rankings update in real time
- **Super Admins:** check the SF Logs dashboard after syncing to verify operations succeeded
- **Pod Admins:** run Round Robin after each sync to distribute new leads evenly (cap: 5 active per SDR)
